27- DURATION		

Key to Chart:

OPEN- means negotiations are continuing on that section.

T/A- means that we have reached a tentative agreement on that section, which is the goal for all sections. The agreement is "tentative" because it could be subject to change based on something that changes later in negotiations, even though the parties don't foresee any additional changes at this time. *- T/A was revised to incorporate Administrative Manual.

DEADLOCKED- means that the parties have gone as far as possible in those sections without being able to reach an agreement.

Blank columns mean that we have not yet exchanged proposals on that section.
